## The Lutze Housebarn Project

Built in 1849 by Gottlieb and Fredericka Lutze, the housebarn is on the National Registry of Historic Buildings. The Lutze Housebarn is one of the few of this particular designs remaining in the United States!

What is happening? What can I do?

- Experience working on a team
- Connect with the out of doors & natural building materials
- Experience a barn and house where animals and people lived together
- Understand the cataloging, recording and preserving of historical records
- Historic Restoration
  - o Timber Framing & Reconstruction
  - o Hewing, carpentry, framing
  - o Masonry-fieldstone and mortar
  - o Gardening-vintage and heirloom
  - o Interiors-lathe and plaster

As the building is restored, you are invited to participate in all aspects of the process with hands on skills taught by our seasoned volunteers who donate thousands of hours of work each year!
